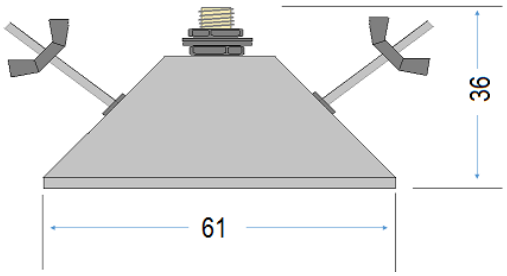
E4013B – Strap-on tree mount

Installation notes

E4013B strap-on tree mount converts the Elipta Compact Spike Spotlight to an adjustable tree mounted spotlight, typically used for moonlighting and downlighting from trees.

Fit spotlight onto the centre bush of the E4013B. Tighten the lock nut against the hollow threaded section of the spike spot-light to secure its position. Secure one end of a strap to one of the side stud fixings with the wing nut and washer supplied. Stretch the strap around the tree branch or trunk and slot the hole in the other end of the strap over the second stud, ensuring the chosen strap size provides a secure fit: secure the strap with the wing nut and washer suppled. Cable connections can be made using a T9962 Cable Joint Kit, T9963 Cable Splice Kit or a T9966 IP68 in-line connector or any IP rated junction box.

Part code	E4013B
Dimensions (mm)	61x36
Construction	Aluminium
Finish	Black powder coat
Net weight (g)	97
Warranty	2 Years
Origin of manufacture	PRC



2 YEAR WARRANTY

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Corrosion due to exposure to salt or chlorine. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss.
