

E1612 - Alto 60 Bollard Light - Stainless Steel

Description

Alto 240v LED outdoor bollard light constructed from quality stainless steel with distinctive glare louvres, ideal for use along paths, driveways and entrances. Easy to bolt to paving and slabs or by using an optional ground-mount can be installed into concrete prior to electrical installation. Additional, galvanised ground spike is also available for installation in planting and lawn areas. Polycarbonate diffuser and metal louvres help stop glare from the lamp and will work with most PIR and Photocell sensor systems.

Colour/ Finish

304 grade Stainless steel.

Exterior Dimensions

Body, 600mm x 120mm with a 160mm base plate.

Installation guidelines

Pre-wired with 2m rubber cable for connection via T9969 underground joint kit, or a T9966 IP68 in-line connector or any IP rated junction box or T9984 and T9985 Kits.

Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD.

**3 YEAR
WARRANTY**

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Corrosion due to exposure to salt or chlorine. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss
