

## EH8363-650- Stella Bollard Light - Graphite

### Description

The Elipta Stella Bollard Light has space inside to take any of the new 240v E27 LED candle lamps and most E27 corn lamps up to 20 watts. Can also be used with energy-saving, long life compact fluorescent lamps up to 15 watts - recommended for driveway and path lighting. This minimises energy consumption and lamp replacement. The bollard may be bolted to paving or decking, or fixed into wet concrete using the anchors supplied. For soft ground use the optional ground-spike, (purchase separately).

|                            |                                       |
|----------------------------|---------------------------------------|
| <b>Electrical</b>          | 240v E27 candle lamp                  |
| <b>Colour/ Finish</b>      | Graphite Grey powder-coated aluminium |
| <b>Exterior Dimensions</b> | 650mm tall x 143mm wide base          |

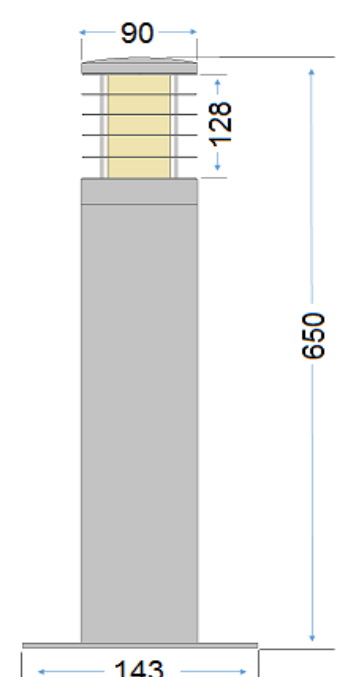

Pre-wired with a 2 metre rubber cable for connection via T9969 underground joint kit: the installer may shorten the fitted cable to make a weatherproof connection inside the base of the light.

Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD.

# 2 YEAR WARRANTY

**Exclusions:** Damage by machinery, animals or the use of incorrect cleaning materials. Corrosion due to exposure to salt or chlorine. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss
