

Elipta EP32120- Micro Deck Light 12/24v DC-2w-80lm-120°-2700K-IP67- 316 Stainless Steel

Description

The Elipta Micro deck light is a warm white LED recessed deck light which consumes a tiny amount of power and stays cool to the touch. The 2w LED produces a wide 120° beam diffused by the 16mm diameter frosted glass lens. Suitable for marking out the shape of a deck, patio or terrace and to provide marker lighting in step risers. To outline a deck or patio space with a distinctive shape, start at the corners of the decking or paving and space LED recessed garden lights at about 60cm - 1m apart in step risers, space them about 60cm apart along the centre line of the riser.

Electrical data	12v/24v DC 2w 2700K 80lm. Requires 12v or 24v constant voltage dc power supply.
Colour/ Finish	316 Grade Stainless Steel top. Anodised aluminium body. Plastic recess sleeve.
Exterior Dimensions	Top 28mm diameter. Body of 43.5mm. Sleeve 25mm x 56mm.

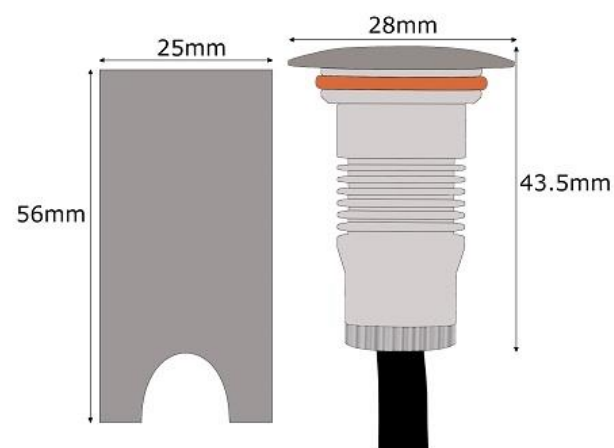

IP67	12v/24v DC	Pre-wired 2m	50,000 Hours
Wide beam		Built-in LED	

Installation guidelines

Micro Deck lights can be arranged in custom layouts using cable joint kits and 1.5mm cable, which is more flexible than kit-type products. Connect to the end of a low voltage cable using T9962 cable joint kit; for splicing into a run of cable use T9963 cable splice kit.

Do not use wire wound transformers or constant current power supply.

Do not exceed 60% of the nominal rating when selecting your DC constant voltage power supply

**3 YEAR
WARRANTY**

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss.
