

Elipta GLWW4WW- Luxor Warm White 4w Underwater Spotlight C/w 5 Metre Cable

Description

Elipta Luxor is an adjustable led underwater spotlight with a nickel-plated brass body and three warm white LED's. It has a clear lens and provides a focused 30 degree beam for uplighting small trees and focal points, or for use as an underwater spotlight in fountains and waterfalls.

The ribbed body is designed to accept an optional clip-on glare shield and the adjustable polycarbonate knuckle joint fits a range of mounting options including a spike, weighted base, extension pole and a tube bracket to allow mounting on fountain head pipes: mount required must be ordered separately. Elipta Luxor is designed for easy installation with the minimum of tools with Plug&Play transformers, connectors, extension cables and junction boxes.

Electrical	12v AC Plug & Play, 3 warm white built-in Cree LEDs, 180Lm 30° beam angle. IP68 with IP44 connectors
Colour/ Finish	Nickel Plated Brass Body
Exterior Dimensions	Body 60mm x 42mm and 122mm tall on GLMB.

IP68	Built-in LED	12v
Beam 30°		Plug & Play

Installation guidelines

5m input cable with male IP44 2-pin input connector to plug into a Plug&Play transformer, extension cable, connector or junction box: an IP68 connection may be achieved by using either the GLWJB IP68 junction box or GLWCC IP68 waterproof cable connector. Adjustable polycarbonate knuckle joint fits a range of mounting options including a spike, weighted base, extension pole and a tube bracket to allow mounting on fountain head pipes.
