

E6001 Black Polycarbonate Mounting Spike

Polycarbonate ground spike for Elipta Microflood and Pole Spot to provide firm location in especially loose or sandy soils. It is also useful in reducing frequency of refocusing or repositioning where disturbance by children, pets or gardeners may occur regularly.

PHYSICAL DATA

- Black polycarbonate moulded spike
- Brass threaded insert

INSTALLATION

Thread the cable from the light through the spike, screw the spike to stem of fitting and push spike into ground. Make connection to the cable from a transformer with a cable joint T9962 or cable splice kit T9963.

COMPLIANCE & WARRANTY

- 2 year warranty
