

T92020GB – Elipta Potted LED Power Supply and Ground Burial Enclosure

Installation notes

T92020GB is a 12V DC, 24W ground burial power supply, mounted into an IP65 enclosure with resin included.

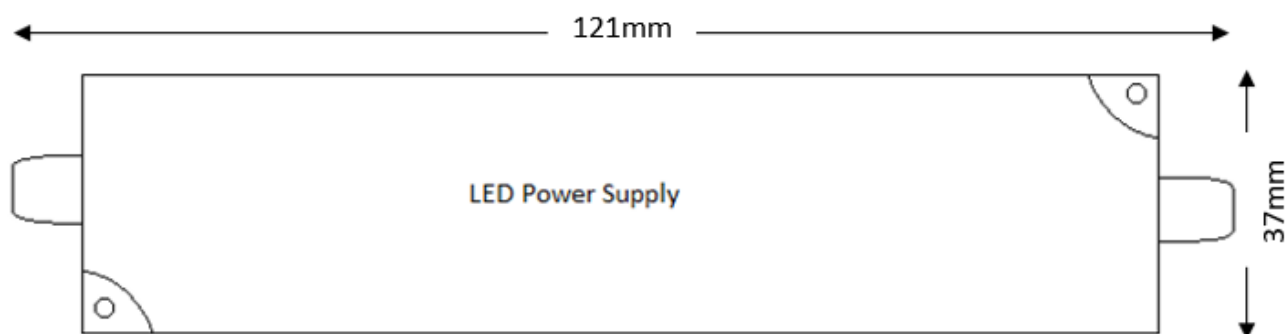

Note – This product must be installed by a qualified electrician.

Resin safety notes

- Personal protective clothing (gloves, eye protection) should be worn
- Ensure adequate ventilation is available.
- Mild irritation may occur should skin contact occur, in which case immediately wash affected area with soap and water, seeking medical advice if reaction persists.
- If in contact with eyes, bathe the eye with running water for 15 minutes, and seek medical attention if discomfort continues.
- Harmful if inhaled – if a tightness of the chest, a cough develops, or shortness of breath occurs after using this product seek immediate medical advice.

Part code	T92020GB
Dimensions (mm)	121x37x26
Enclosure dimensions (mm)	160x120x71
Cable length (mm)	150
Construction	Polycarbonate
Input voltage	240V 50Hz
Output voltage	12V DC
Max wattage	24W
Class	Class II
Dimmable	No
IP rating	IP67
Gross weight (Kg)	1010
Net weight (Kg)	1051
Warranty	2 Years
Origin of manufacture	PRC

IP67

2 YEAR WARRANTY

Electronic Controllers, Power
Supplies & LED Drivers
